March 29, 2016

This brochure provides information about the qualifications and business practices of Focused Wealth Management, Inc. and its supervised personnel. If you have any questions about the contents of this brochure, please contact us at the phone number listed above.

The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority. Please note, where this brochure may use the terms "registered investment adviser" and/or "registered", registration itself does not imply a certain level of skill or training.

Additional information about the firm is also available on the SEC's website at www.adviserinfo.sec.gov

Item 2: Material Changes

The purpose of this Item 2 is to disclose material changes that have been made to this Brochure since the last annual update of this Brochure.

The last annual update of this Brochure was dated March, 31 2015. Since its last annual update, the following material changes have been made to this Brochure:

- Item 5 has been amended with respect to how fees are charged for the various asset management services the firm provides. Specifically, disclosures regarding whether fees are charged in advance or in arrears, the value upon which fees are based, and the frequency of when fees are charged have been amended.

Item 4: Investment Advisory Business

Established in 2010 by Managing Director, Philip J. DeAngelo, Focused Wealth Management, Inc. ("FWM"), offers several different advisory services to Individuals, Charities, Municipal Entities, Corporations, Trusts, Institutions, Not-for-Profits, Public and Private Endowments, Pension Funds, Foundations and Contingency Funds.

Financial Advisors Program

FWM provides investment advisory services through a program offered by Securities America Advisors, Inc. ("SAA"), a SEC registered investment adviser. The Financial Advisors Program (FAP) is a *wrap-fee*¹ program providing investment advisory services, custody, execution, and clearing services for one inclusive fee. These services are all included in the stated investment management fee. In addition, clients will pay the ticket charges for discretionary and non-discretionary trades made in their account, though the client's ticket charge may be reimbursed at the firm's discretion.

FWM will assist the client in establishing an FAP Account with SAA. A complete description of the FAP investment services and related fees are described in the FAP Wrap Fee Brochure, which will be presented to each client prior to or at the time an FAP Account is established.

All brokerage transactions in this program will be processed by Securities America, Inc. ("SAI"), a registered broker-dealer, and then cleared and held custody with National Financial Services, LLC ("NFS"). SAA has also entered into agreements with various insurance companies that allow for the management and valuation of client variable annuity accounts within SAA's FAP program. At no time will FWM, SAA or SAI have possession or act as custodian of client accounts.

Focused Wealth Wrap Fee Program

The firm also provides similar portfolio management services as a sponsor of a proprietary wrap fee program. Within the FWM Wrap Fee Program, accounts are continuously monitored by Focused Wealth's Investment Management Committee.

Please refer to FWM's Wrap Fee Program Brochure (Form ADV Part 2A Appendix 1) for complete details on FWM's Wrap Fee Program.

FWM Wrap Fee Program

¹ *Wrap Fee*: Any one fee charged for a bundle of services, including brokerage, management, and administrative costs.

The program primarily consists of Exchange Traded Index Funds and similar types of investments. The FWM Wrap Fee Program is offered to those accounts with a minimum of \$25,000. FWM reserves the right to grant exceptions to this minimum at the firm's discretion. Focused Wealth's fee is based on a percentage of the client's assets under firm management. Where the account incurs certain brokerage-related costs, such costs are absorbed by FWM and paid to the brokerage firm from a specified portion of the Wrap Fee Program fee. Participating accounts will be held with a qualified custodian and may be subject to additional charges not covered by the wrap fee arrangement.

Other Investment Management Services

In addition to offering investment management via one of the wrap fee programs mentioned above, FWM also offers investment advisory services outside of a wrap fee program to clients on a discretionary and non-discretionary basis.

FWM will assist the client in establishing an account with the qualified custodian or variable annuity company. Clients may place reasonable restrictions and investment guidelines on transactions in certain types of securities or industries. A minimum of \$25,000 in total assets under management per household is typically required to establish an account, although exceptions may be granted to this minimum at the firm's discretion. At no time will FWM act as custodian of any client account, nor will the firm have access to a client's funds and/or securities.

Recommendation of Type of Investment Management Service

Regardless of whether the client's assets are managed via one of the wrap fee programs mentioned above or outside of a wrap fee program, the firm's investment management strategy is implemented in conjunction with client's investment objectives, risk tolerance level, liquidity needs, tax and/or legal implications and other concerns where applicable. FWM receives a portion of the wrap fee charged through one of the wrap fee programs for the services it provides through the program.

Financial Planning

FWM also offers financial planning services in the form of written or oral, comprehensive or modular financial plans. A comprehensive plan can include, but is not limited to, the areas of retirement planning, estate planning, insurance planning and analysis, education planning and analysis, long term care planning and analysis and benefit plan analysis. Fees for financial plans can be either hourly or fixed, at the client's discretion. At the initial meeting, for which there is no charge, FWM will gather information from the client regarding his/her current financial situation, goals and objectives. If the client elects to proceed with a written or oral plan and selects an hourly fee, FWM will inform the client

of the estimated hours it will take to complete the service. Terms and conditions will be agreed to in writing.

Consultations/Ongoing Consultations

Clients not wishing to purchase a financial plan may also contract with the firm for consultations on any topic of interest to them. Fees will be charged on an hourly basis. The client and FWM will jointly determine how many hours are required to complete the requested consultation services.

Clients desiring more than two consultations on financial planning, investment or other matters may contract with FWM for ongoing consultation services. These services will be provided on a semi-annual basis, renewable on each six-month anniversary date if the client elects to do so. The associated person will provide the client with an estimate of the hours needed during the six month contract period to complete the requested services; the client will also assist in determining the time required.

Clients desiring ongoing consultations on 401(k), qualified or other benefit plans will be charged on a percentage of assets under management. This fee is negotiable based upon the complexity of the client's situation and the actual services provided.

Newsletters

FWM sends out a monthly, quarterly and annual newsletters to clients reviewing market conditions and performance of the respective prior month and year.

FWM prepares a market commentary each day which is sent out to clients and posted to FWM's website. The firm also contributes articles to financial news websites.

All newsletters are provided free of charge to clients.

As of December 31, 2015, FWM managed \$432,635,901 in discretionary assets and \$9,027,712 in non-discretionary assets.

Item 5: Fees and Compensation

ASSET MANAGEMENT PROGRAM FEES

Financial Advisors Program

The annual management fee charged for this service will be negotiated with each client, with 2% being the maximum management fee that may be charged to clients. Fees for fee-based accounts are charged monthly in advance based on daily average value and are automatically deducted from the client's account, as authorized by the client in writing. Fees for linked 401k accounts are charged quarterly in advance based on the value at the

end of the quarter, and may either be deducted from the client's account or be invoiced. SAA retains up to 15 basis points (0.15%) of the annual management fee for FAP accounts.

Focused Wealth Wrap Fee Program

Clients participating in the FWM Wrap Fee Program are charged up to 2% annually, as detailed in the client agreement. Fees for fee-based accounts are charged monthly in arrears based on the month end value and are automatically deducted from the client's account, as authorized by the client in writing. For linked 401k accounts, fees are charged monthly in advance based on the end of quarter value, and may either be deducted from the client's account or be invoiced.. Wrap fee program fees include Focused Wealth's management fee and cover certain brokerage-related costs. Clients are encouraged to review Appendix 1 of this brochure for further information related to this program.

Other Investment Management Services

The annual management fee charged for this service will be negotiated with each client based upon the complexity of the client's financial situation, the complexity of the services provided and the dollar amount of assets under management. The maximum annual fee charged for this service will be 2% annually. FWM will quote an exact percentage to clients for services being provided. The fee will be charged quarterly in advance based on the quarter end value and will be automatically deducted from the client's account as authorized in writing by the client.

Additional Fee Disclosure

Where clients may incur additional expense (that not covered by the wrap fee) from brokerage-based activities, clients should be aware that all custodial and execution fees remain separate and distinct from those fees charged by FWM for its asset management services.

All fees paid to FWM for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds or variable annuities to their shareholders (FWM clients). These fees and expenses are described in each fund's and annuity's prospectus. With respect to mutual fund investments, these fees will generally include a management fee, other fund expenses, and a possible distribution or trailer fee. With respect to variable annuities, these fees may include sales loads, surrender charges, administrative expense charges, insurance charges for death benefits, guaranteed lifetime withdrawal benefits and/or other insurance-related expenses as described in the variable annuity's prospectus. If the fund or annuity imposes sales charges, a client may pay an initial or deferred sales charge.

Clients should note that the firm and its representatives may receive additional compensation in the form of commissions and 12b-1 distribution fees from the respective mutual fund and variable annuity investments made through SAI. This practice presents a conflict of interest and gives the firm's representatives an incentive to recommend investment products based on the compensation received, rather than on the client's needs. To mitigate this conflict, FWM uses no-load and load-waived mutual funds, when available. Where the representatives of FWM may earn commissions on a client's transaction, FWM waives its advisory fee on assets held in the commissionable product for a minimum of twelve months following receipt of such commissions.

Clients should review both the fees charged by the mutual funds and variable annuities and the advisory fees charged by FWM to fully appreciate the total amount of fees to be paid by the client. All National Integrity contracts sold after July 1, 2011 cannot be charged a management fee, pursuant to National Integrity Life Insurance Companies policy change.

Clients have the option to purchase investment products that FWM recommends through other brokers or agents that are not affiliated with FWM; however, such purchases would be made without the benefit of the extensive experience and tailored advice FWM provides to clients through the various asset management services it offers.

FWM and/or the client may terminate the account agreement, in whole or in part, at any time with written notice. Upon termination, any fees paid in advance will be prorated to the date of termination and any excess shall be refunded. The Client's advisory agreement with FWM is non-transferable unless consented-to in writing by the client.

Financial Planning

If the client elects to proceed with a written or oral plan and selects an hourly fee, the representative of record will inform the client of the estimated hours it will take to complete the service at a rate not to exceed \$150 per hour. The hourly rate is negotiable based upon the complexity of the client's situation and the actual services provided. These factors are also considered when estimating the hours needed to complete the requested services.

The firm's hourly fee will be negotiated and agreed upon by the parties in advance. Hourly fee-based clients are billed on a monthly basis upon completion of the work performed.

FWM may charge a fixed fee for comprehensive financial planning services that will range from \$100 to \$1,000 per plan depending upon the complexity of the client's financial situation and the actual services to be provided. Fixed fees may be negotiated in advance based on the sole discretion of the firm.

Whether hourly or fixed, all fees will be disclosed to the client prior to any services being provided. For hourly fees, clients will be billed for the actual time expended. If less time is needed than the original estimate, the client will be charged for the actual time expended by the associated person. Either FWM or the client may terminate services by providing written notice to the other party, and the notice will be effective upon receipt. Upon termination, any fees paid in advance will be prorated to the date of termination and any excess shall be refunded.

Consultations/Ongoing Consultations

The hourly rate for consultations/ongoing consultations will not exceed \$150 per hour and is negotiable based upon the complexity of the client's situation and the actual services to be provided. All fees will be disclosed to the client prior to any services being provided. For consultation services that will be completed with one or two meetings, payment is due at the time the agreement for services is signed. Both parties may terminate services by providing written notice to the other party, and the notice will be effective upon receipt. Upon termination, any fees paid in advance will be prorated to the date of termination and any excess shall be refunded.

Clients desiring ongoing consultations on 401(k), qualified or other benefit plans will be charged on a percentage of assets under management. This fee is negotiable based upon the complexity of the client's situation and the actual services provided. The fee will be billed quarterly in arrears and will generally not exceed \$25,000 per quarter. Fees will be disclosed to clients prior to any services being provided. Both parties may terminate services by providing written notice to the other party, and the notice will be effective upon receipt. Upon termination, any fees paid in advance will be prorated to the date of termination and any excess shall be refunded.

Item 6: Performance-Based Fees and Side by Side Management

As FWM's advisory services do not incorporate performance fees or the offering of any additional investment services, side-by-side management does not apply to those services rendered by FWM.

Item 7: Types of Clients

FWM provides investment advisory services to Individuals, Charities, Municipal Entities, Corporations, Trusts, Institutions, Not-for-Profits, Public and Private Endowments, Pension Funds, Foundations and Contingency Funds. FWM requires its investment management clients to maintain a minimum account size of \$25,000. This minimum account size remains negotiable, under certain circumstances, and at the sole discretion of the firm.

SAA's recommended minimum investment amount for establishing and maintaining an FAP Account is \$25,000. Exceptions may be granted to these minimums upon request.

The firm's sponsored Wrap Fee program requires participating accounts to maintain a minimum of \$25,000 at all times. Exceptions may be made on a limited basis.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

FWM utilizes a fully integrated and comprehensive Investment Manager and Investment Product search to identify, select, and monitor the best-in-class asset managers and exchange traded funds (ETF's) for each asset class and style to be represented. This is conducted quarterly.

The process begins by utilizing proprietary and quantitative screening methodology designed to narrow the field of investment choices to only those funds and ETF's meeting standards set by the firm's Investment Selection and Monitoring Committee. Factors considered in this analysis may include:

- Trading platform availability: Investment Managers or ETF's must trade with no loads and should use a common trading platform to eliminate transaction costs and wiring fees.
- Regulatory oversight: Each Investment Manager or ETF should be part of a regulated bank, an insurance company, a mutual fund organization, or a registered investment adviser.
- Correlation to style or peer group: Investment Managers or ETF's should consistently correlate to its stated investment style.
- Performance relative to a peer group: The product's performance is evaluated against its peer group's average annualized return for 1-, 3- and 5-year periods and, in addition; take into account year-by-year performance.
- Performance relative to assumed risk: The Investment Manager's portfolio or ETF's risk will be evaluated against its peers and the overall market the manager is attempting to represent
- Manager tenure: The Investment Manager should have several years managing the fund or a fund with similar investment characteristics.
- Assets under management: The Investment Manager must meet minimum assets under management size within each asset class.
- Stability of the organization: The firm looks for stable and consistent management; the same portfolio management team should be in place for at least two years.

The Committee then further reviews all funds and ETF's applying additional analytical and subjective measures to narrow its investment recommendations for each investment style.

Other variables considered in this analysis may include:

- Growth in assets the previous two quarters and one year
- Shifting from its designated style
- Name recognition
- Other statistical risk measurements
- Review of analyst's commentary

Recommended funds and ETF's are placed on a formal Investment Product Selection List outlining all the statistical data utilized in the selection of fund(s) within each style group. It is then distributed to FWM for use in the selection of investment fund(s) and ETF's for their clients.

The Suitability of the investment products and investment managers will be monitored on a quarterly basis and it is at the Committee's discretion to take corrective action by replacing a manager, or ETF if deemed appropriate.

FWM utilizes a fully integrated and comprehensive Investment Holding search to identify, select, and monitor individual equity, fixed income, and options positions. This is conducted quarterly. Both proprietary and quantitative screening methodology is used to identify investment choices to only those equity and fixed income holdings meeting standards set by the firm's Investment Selection and Monitoring Committee. Factors considered in this analysis may include quantitative analysis of a company's balance sheet, income statement, management effectiveness, liquidity and solvency, profitability, price volatility, credit rating, and review of analyst's commentary. Other factors considered include an overall macro environment risk assessment including market and economic conditions, legislative risks, and competition evaluation. In the evaluation of fixed income holdings, factors considered include evaluations of the underlying company, credit ratings provided by various rating agencies, and maturity of issuance including duration or interest rate sensitivity assessment.

The Suitability of the equity, fixed income, and options holdings will be monitored on a quarterly basis and it is at the Committee's discretion to take corrective action by replacing a security if deemed appropriate.

Risk of Loss: Investing in securities involves a certain amount of risk of loss that clients should be prepared to bear. Where short term trading methods are employed, the cost of more frequent trades can often incur more expense than that of a more conservative or long term purchase approach. Questions regarding these risks and/or increased costs may be directed to the firm and its representatives.

Item 9: Disciplinary Information

Rule 206(4)-4 of the Investment Advisers Act of 1940 requires investment advisers to provide clients with disclosures as to any legal or disciplinary activities deemed material to the client's evaluation of the adviser. Please note, neither the firm nor its personnel have any disciplinary, regulatory, criminal, civil, or otherwise reportable history to disclose at this time.

Item 10: Other Financial Industry Activities and Affiliations

FWM's investment adviser representatives are also registered representatives with Securities America, Inc., ("SAI"), a FINRA registered broker/dealer. Through this arrangement, registered representatives may purchase or sell securities for SAI client accounts for additional commission based compensation.

Clients should note that the firm and its representatives may receive additional compensation from mutual fund sales loads and 12(b)-1 distribution fees made through SAI. Additionally, they may receive additional compensation from variable annuity sales or trail commissions made through SAI or other firms for various variable annuity investments.

Investment adviser representatives serve as separately licensed insurance agents and, as such, are involved with the sale and servicing of life and health insurance products on behalf of various insurance providers. If a client elects to purchase insurance products through representatives associated with FWM, these individuals will be compensated by the provider on a commission basis.

The firm maintains a fiduciary obligation to place its clients' interests first. However, clients should be aware that the receipt of additional compensation itself can create a conflict of interest, and may affect the judgment of this individual when making investment recommendations. In order to properly handle such potential conflicts of interest, the firm has adopted a Code of Ethics. Please see Item 11 (below) for further discussion related to the firm's Code of Ethics.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Pursuant to Rule 204(A)-1 of the Investment Advisers Act of 1940, FWM has adopted a Code of Ethics that sets forth the basic policies of ethical conduct for all managers, officers, and employees of the firm. The Code of Ethics describes the firm's fiduciary duties and obligations to clients, and sets forth its practice of supervising the personal securities transactions of employees who maintain access to client information.

The firm, and related persons of the firm, including but not limited to, FWM's investment adviser representatives, may invest in the same securities (or related securities, e.g., warrants, options or futures) that FWM or any of its related persons recommend to clients. Some of these investments may be placed at, or about the same time as, the placement of client securities transactions. This presents a conflict of interest, as the firm and its related persons may be incented to benefit from client transactions by placing their own interests ahead of those of the firm's clients. FWM requires that client transactions in Reportable Securities (as this term is defined in the Code of Ethics) be placed ahead of those of the firm or its related persons. Such transactions remain under strict supervision and subject to regular review by the firm's compliance staff.

The firm's investment adviser representatives are also registered representatives of Securities America, Inc., FINRA member broker-dealer. In their capacity as registered representatives, these personnel may sell securities and receive commissions for the sale of such securities. This creates an incentive for the representative, in his or her capacity as an investment adviser representative, to recommend securities products based on the compensation received rather than on the client's needs. The representative may also be incented to trade heavily in client accounts. However, all trading is supervised to ensure adherence to each client's investment objectives and goals.

A copy of the firm's Code of Ethics is available upon request.

Item 12: Brokerage Practices

FWM maintains the investment discretion to place transactions and select brokers without prior approval of clients. Accordingly, the firm seeks to obtain the most favorable net results for client's price, execution quality, services and commissions. FWM does not allow clients to direct brokerage to broker-dealers other than the custodians typically used by the firm for trade execution. Not all advisers require clients to direct brokerage to the brokerage firm typically used by the adviser. As discussed below, the firm has a fiduciary duty to seek best execution and act in the clients' best interests.

FWM maintains a fiduciary duty to seek best execution pricing for client transactions. While best execution is difficult to define and challenging to measure, there is some consensus that it does not solely mean the achievement of the best price on a given transaction. Rather, it appears to be a collective consideration of factors concerning the trade in question. Such factors include the security being traded, the price of the trade, the speed of the execution, apparent conditions in the market, and the specific needs of the client. FWM evaluates on a monthly basis whether clients are receiving best execution with the broker-dealers currently being used when placing client securities transactions.

FWM is able to aggregate client orders in equity including ETFs, fixed income, funds, and options trades held within a certain custodian. FWM seeks to always aggregate orders when it has the opportunity to do so within each respective custodian. FWM also seeks to enter trades in a single “block trade” when it has the opportunity to do so seeking uniform pricing within executions in a same security trade. Not doing so may result in the client obtaining less favorable execution price than if multiple orders for shares of the same security were combined into a single “block trade”. As stated above, FWM maintains a fiduciary duty to seek best execution for client transactions and conducts periodic reviews of the execution it receives in placing client securities transactions.

FWM does not receive any research, products, client referrals, or other services from a broker-dealer or third party in connection with client-based securities transactions (i.e. no soft dollars).

Item 13: Review of Accounts

The firm’s investment modules are reviewed daily by a member of the Investment Management Committee. Investment Accounts are monitored on a weekly basis by FWM’s Investment Management Committee. Accounts will be reviewed more frequently as necessary to respond to significant changes in client circumstances or changes in market conditions. Triggering factors to warrant more in depth review could include the following;

- Awareness of a change in investment objective
- change in market conditions
- change in employment status
- re-balancing of assets to maintain proper asset allocation
- other activity discovered as the account is normally reviewed.

FWM periodically reviews reports provided to the client and contacts the client at least annually to review the client’s financial situation and objectives. As a result of this contact, the firm may communicate information to the third party investment adviser as necessary. Clients are encouraged to notify FWM of any changes in their financial situation, investment objective or account restrictions.

Clients will receive written brokerage or custodial statements each month.

Item 14: Client Referrals and Other Compensation

FWM may enter into written agreements with third-parties for the solicitation of advisory clients, through which FWM compensates the soliciting party for client referrals. The terms of these written arrangements are disclosed to the referred client in a Solicitors Disclosure Statement provided to the client by the solicitor at the time of solicitation, along with a copy of this FWM brochure, in compliance with Rule 206(4)-3 of the Advisers Act. At the

time of this filing, FWM has a solicitors agreement with Vision Consultants, LLC. Individuals associated with this solicitor may provide client referrals to FWM for a fee.

FWM does not receive any economic benefit from a non-client for the provision of advisory services to the firm's clients.

Item 15: Custody

Other than the client authorized direct deductions of fees from accounts, FWM does not maintain or accept custody* of client funds or securities.

*Custody means holding, directly or indirectly, client funds or securities, or having any authority to obtain possession of them. *Rule 206(4)-2 Investment Advisers Act of 1940.*

Item 16: Investment Discretion

FWM maintains limited discretionary authority over the selection and amount of securities to be bought or sold in client accounts, as well as the broker or dealer to be used to place such transactions, without obtaining prior consent or approval from clients. However, these purchases or sales may be subject to specified investment objectives, guidelines, or limitations previously set forth by the client and agreed to by the firm.

Discretionary authority will only be authorized upon full disclosure to the client. The granting of such authority will be evidenced by the client's execution of an agreement containing all applicable limitations to such authority. All discretionary trades made by FWM will be in accordance with each client's investment objectives and goals.

FWM does maintain client accounts in which they do not exercise discretion and all recommendations can only be executed with the consent or approval of the client. These purchases and/or sales are also subject to specified investment objectives, guidelines, or limitations previously set forth by the client and agreed to by the firm.

Item 17: Voting Client Securities

FWM will not vote, nor advise clients how to vote, proxies for securities held in client accounts. Clients may contact FWM with questions regarding a particular solicitation; however, the client maintains the authority and responsibility for the voting of these proxies. The firm and its clients agree to this by contract. Clients will receive such proxies or other similar solicitations directly from the transfer agent or other third party designee where applicable.

Item 18: Financial Information

Under Rule 206(4)-4 of the Investment Advisers Act of 1940, investment advisers are required to disclose certain information about their business practices that might serve as material to the client's decision in choosing an investment adviser.

As of the date of this filing, FWM does not require the payment of more than \$1,200 in fees six months or more in advance or maintain any financial hardships or other conditions that might impair its ability to meet its contractual obligations to clients.
